April 4 MMTC Meeting

The Mira Mesa Town Council meeting on Monday, April 4, 2022, 7 to 9pm via Zoom, will have a double- feature main program. Find out more about the new "edge lanes" recently striped on Gold Coast Drive near Parkdale. The "edge lanes" are intended for bicycles, leaving a single central two-way traffic lane for cars, so autos are allowed to go into the "edge lanes" as needed. Everett Hauser, from the City of San Diego Transportation Division, will attend the April 4 MMTC meeting to explain the "edge lanes" street lining design and answer questions about it. The meeting will also feature San Diego Miramar College Vice President of Administrative Services, Brett Bell, with a presentation and overview of Miramar's Facilities Master Plan, concluding with a question and answer session.
Regular reports from representatives of Mira Mesa's elected officials and updates from other community groups will take place at the April 4 meeting, as usual. The meeting will start at 7pm via Zoom. Public welcome! (See event calendar for registering)

MIRA MESA TOWN COUNCIL

President's Message: Be The Change You Want To See In Mira Mesa

I have always loved this quote, attributed to Mahatma Gandhi. And while the quote is not exactly what he said – his actual quote is longer and more elegant – the meaning is there. This week presented another example of what we can accomplish if our community is united and speaks up for what is important. Late last week, we posted on Facebook and Nextdoor about the vote occurring on Tuesday, March 1, to put forward the Capital Budget for County projects in FY22-23. As you may recall, last year the County of San Diego approved a large budget item ($3.65 million dollars) to fund the engineering study and renovations to reopen the Mira Mesa Epicentre as a Teen and Community Center. The Epicentre is the origina- Mira Mesa Library. Once the new library on New Salem was opened, the building was converted to a Teen Center. Everyone in Mira Mesa seems to have fond memories of the building, and of the concerts that took place. (Anyone remember the MySpace Secret Show at the Epicentre on May 13, 2007? Can you believe that Maroon 5 appeared? I have a poster from the event!) The County has completed the engineering study, and the results were grim. Not only would the over $3 million remaining in the allocation be required, but an additional $4.35 million would be required! And while that seems like a lot of money to spend on the renovation, the cost to demolish and rebuild a similar-sized building would be even larger.
Our County Supervisor, Terra Lawson-Remer, sees the value to our community of this project and the programs it will bring for our youth, and is advocating for the additional funding. (continued on page 2)

The Mira Mesa Town Council is a 501(c)(4) non-profit organized to foster the public welfare of the community. Meetings are held on the first Monday of every month at 7pm. See page 12 for newsletter advertising rates and contact info.

President's Message *(continued)*

We the residents, and organizations, just had to demonstrate our support. And THANK YOU! You did turn out, both in eComments and by telephone. And while the Epicenter is still not included in the first draft of the budget, to be reviewed next month, it is at the top of the list for a "change letter" to be applied to the budget once anticipated FEMA reimbursement funding is received later in March. The Epicentre should be included in the FY22-23 budget that the County votes on in April. THIS is how we will accomplish the changes needed in Mira Mesa. I continue to receive emails from residents regarding the issues most concerning in their mind: homelessness, crime, and our roads. And while the programs and funding to address these issues are held at the City, County, State, and Federal level, it is only though advocating for ourselves that those programs and funds will be directed to Mira Mesa. As I write this message, I have a scheduled meeting with representatives from the City Council office, the Mayor's office, the County Supervisor's office, the City's the Director of

Homelessness Strategies and Solutions, SDPD's Homeless Outreach Team, and PATH (the non-profit working with the City on homelessness issues) to discuss the scope of Mira Mesa's issues with homelessness and form a Task Force to address it. I will be looking to interested Mira Mesa residents to participate and find ways to address the problem. Months ago, we put out a call for those interested in forming a Neighborhood Watch oversite group, which would unite the small and scattered Neighborhood Watch programs currently established in Mira Mesa into a larger organization that could coordinate with SDPD and each other to reduce our crime rate. I have personally been involved in such a program, and the impact reduced our insurance rates by lowering crime rates – especially theft. I received an underwhelming two inquiries, neither of which followed through. As we saw with the Epicentre vote, if we unite and speak up, we can accomplish much. Think about how much more we can accomplish if we commit this same energy to other issues in Mira Mesa. I will be putting out the call this month for both our Homelessness Task Force and our Neighborhood Watch group. Next month, we will work on our Streets and Infrastructure committee.
Last month I asked you to consider committing one hour a week to improving Mira Mesa. This month, I will give you the opportunity to use that one hour on any one of a variety of projects. And if you can commit more than one hour, we can accomplish even more.

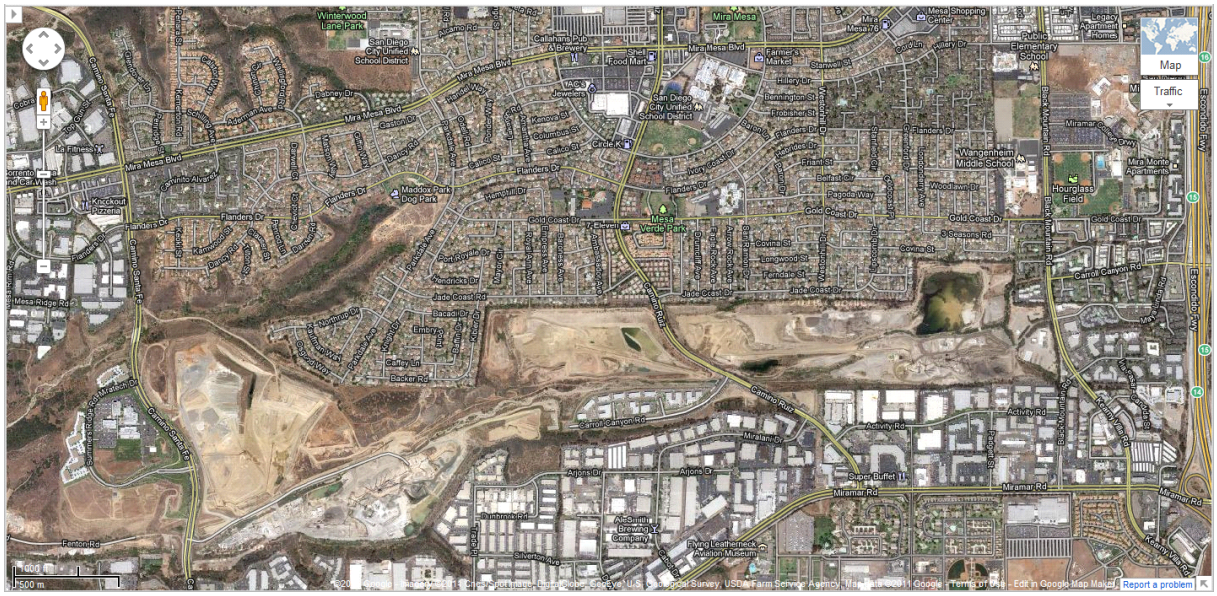
Vulcan's Stone Creek Project

Jeff Stevens, Chair, Mira Mesa Community Planning Group
March 20, 2022

Last month I described the 3Roots project now under development in the western half of Carroll Canyon. East of that project is a larger planned project on the 300 acre property now being mined for sand and gravel by Vulcan Materials. The project is named "Stone Creek."



When the Mira Mesa Community Plan was written in the late 1980's, there was no specific plan for this area, and the Community Plan instead has a section entitled "Carroll Canyon Master Plan Area" with general guidelines for the types of projects that could be developed. The 1992 Community Plan lists four properties in this area:

• Fenton Materials Company operates a mining facility on approximately 500 acres of their 573-acre site in accordance with Conditional Use Permit (CUP) No. 89-0585, which expires in the year 2015.
• The CalMat Company operates a mining facility on approximately 300 acres in accordance with CUP 315-2, which expires in the year 2006.
• The Ruth Lane Estate owns approximately 60 undeveloped acres, which are constrained by steep slopes and the floodplain; and
• El Camino Memorial Park operates a cemetery on a portion of their 200-acre site in accordance with CUP 4120.

The Fenton property was sold to Hanson and is now being developed as 3Roots. The Ruth Lane Estate is the property just north of Carroll Canyon Road and just west of Camino Ruiz that has been developed as the Carroll Canyon Business Park. CalMat was acquired by Vulcan Materials in 1998. The Community Plan states that these three properties should be developed as either:

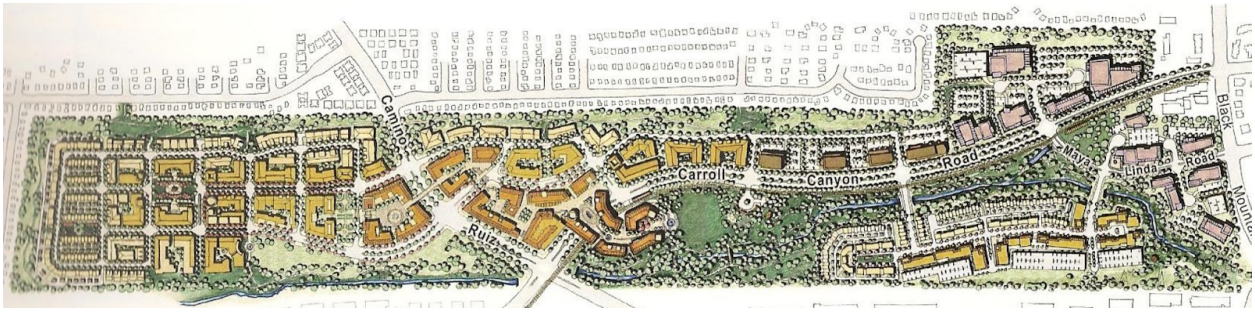
A. A Transit-Oriented Development (TOD) scenario with an intensive mix of land uses relying heavily on the LRT or other transit forms to reduce automobile use; or
B. A more conventional development scenario with the predominant use being industrial/business parks.

While the Carroll Canyon Business Park followed option B, both 3Roots and Stone Creek are following option A. More details can be found in the Mira Mesa Community Plan.

Vulcan's property east of 3Roots extends all the way to Black Mountain Road, and will be developed as a project containing 4450 housing units together with some commercial and industrial areas.

Vulcan's Stone Creek Project continued...

This project will complete the section of Carroll Canyon Road between Camino Ruiz and I-15, which completes the route from I-805 to I-15.



A subcommittee of the Mira Mesa Community Planning Group has reviewed proposals for the Stone Creek project since the first plan was presented in 2006. Final subcommittee meetings were held during August, 2020 and led to a set of recommendations which were approved by the full Planning Group on August 17, 2020. The Planning Group had two primary concerns. The first is that although the project is required to do a series of traffic improvements, many of them are specified as a "fair share" contributions rather than construction of the improvements and we want to make sure the improvements are in place by the time the project is generating traffic. The second is that although Vulcan's architect did a fine job on the design of the project, Vulcan will not be the developer of the project, and we want to make sure that the ultimate developer follows through on the approved design. Stone Creek consists of the five "neighborhoods" shown in the figure and table below. The east end, which will be developed first, is a business/industrial development. The western and central parts of the project are medium to high density residential. There is a large passive park running along Carroll Creek south of Carroll Canyon Road, and more residential south of the park.

Figure 2-3. Neighborhoods within *Stone Creek*

Area	Developed Acreage	Residential Units	Commercial Square Feet	Business Square Feet
Village Center	42	1420	150,000	200,000
Westside	71	2725	24,000	
Creekside	25	300		
Parkside	9			135,000
Eastside	30			415,000
Total	177	4,445	174,000	750,000

Vulcan's Stone Creek Project's continued…

The figure below shows the development phasing plan in the draft Stone Creek master plan. The dates obviously need to be updated since the Eastside project did not start in 2015 and Vulcan is still actively mining the area for gravel. Adding a decade to each number is a better time estimate. If the Eastside industrial area starts in 2025, then we can expect the residential and park areas to develop in 2035-2040.
